DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5, 8-16, and 18-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, patentability resides in "at least one blanking device associated with said signal processor and said communications device responsive to said blanking signals and configured to shut down output from the computer ports to said communications device to prevent utilization or interaction with said at least one communications device by said vehicle operator", in combination with the other limitations of the claim.

Regarding claim 12, patentability resides in "an optical isolater circuit in the signal path between said vehicle motion condition detector and said programmable digital computer, said computer being programmed to be responsive to said signals indicative of motion and of potential motion to generate blanking signals applied to said digital computer and limiting said operator's utilization of said computer.", in combination with the other limitations of the claim.

Regarding claim 19, patentability resides in "in response to the vehicle motion condition indicating that it is possible for the vehicle to be currently in motion, disabling communications through at least one port of the computer with at least one peripheral device associated with the computer so as to prevent interaction of the computer with a user of the computer.", in combination with the other limitations of the claim.

Art Unit: 2632

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
